SUSTAINABILITY & GHG POLICY

Policy Statement

Famax Technology (M) Sdn. Bhd. is committed to reducing its environmental footprint and supporting Malaysia's national target of Net-Zero by 2050. We aim to integrate sustainable practices into our daily operations and supply chain management.

1. Regulatory Alignment

As a Malaysian private limited company, we commit to adhering to:

- a) Environmental Quality Act (EQA): Ensuring full compliance with waste and emission standards.
- b) Energy Efficiency and Conservation Act (EECA): Optimizing energy use in our facilities to meet national intensity benchmarks.
- c) National Climate Change Act (2026): Voluntary or mandatory reporting of Greenhouse Gas (GHG) emissions as required by the Ministry (NRES).

2. Operational Goals

- 1. Energy Efficiency - Reducing electricity consumption phase by phase through LED retrofitting and HVAC optimization. Photovoltaic or Solar Panel projects was also under planning for better energy reduction to adhere Green Energy in Manufacturing.
- 2. Waste Management - All waste generated within Famax Plant was properly classified and will be process based the standard and regulations by Department of Environment.
- 3. Digitalization - Reducing paper consumption by prioritizing cloud-based workflows and digital documentation.
- 4. Carbon Footprint - Tracking Scope 1 (fuel) and Scope 2 (electricity) emissions annually to prepare for future carbon pricing.

3. Supply Chain & Procurement

Famax Technology (M) Sdn. Bhd. prioritizes global and local partners who actively reduce their environmental impact. Our procurement selection is based on:

- 1. **Verified Standards:** Preference for suppliers with international environmental certifications (e.g., **ISO 14001**).
- 2. **Carbon Transparency:** Requirement for vendors to provide emissions data for products and shipping.
- 3. **Green Logistics:** Selection of freight partners using fuel-efficient routing and minimal, recyclable packaging.
- 4. **Operational Ethics:** Commitment to sustainable raw material sourcing and waste reduction.

4. Governance

The Management of Famax Technology (M) Sdn. Bhd. is responsible for overseeing the implementation of this policy. This document will be reviewed annually to ensure it remains relevant to Malaysia's evolving environmental regulations.
